The Honorable Paul S. DeGregorio
Chairman
U.S. Election Assistance Commission
1225 New York Avenue, N.W., Suite 1100
Washington, D. C. 20005

Dear Chairman DeGregorio:

Pursuant to your February 17th letter, I hereby provide a report of expenditures by the Commonwealth of Virginia to implement The Help America Vote Act of 2002 (HAVA) under Title 1, Sections 101 and 102.

In keeping with the Virginia State Plan, the State Board of Elections (SBE) has done the following:

Voting Equipment

The Commonwealth of Virginia provided funds to 93 localities to replace punch card or lever machines with HAVA compliant voting equipment. Portions of these expenditures included training and voting accessories.

A total of 6722 units were purchased:

- 3 Diebold AccuVote MS,
- 710 Diebold AccuVote TSX,
- 91 Sequoia AVC Advantage,
- 971 Sequoia AVC Edge,
- 308 Hart eSlate,
- 3698 AVS WinVote,
- 2 AVS WinScan,
- 249 ES&S iVotronic,
- 4 Sequoia Optech III-PE MS, and
- 676 Unilect Patriot.

Polling Place Accessibility

During the calendar year 2005, the SBE developed strategic plans for accessibility improvements across the commonwealth. We expect to spend significant portions of the remaining accessibility allocation over the next year as these projects are completed. Below is a description of HAVA expenditures on this project to date:

- Surveying of Polling Places: SBE contracted with sixteen Centers for Independent Living (disability, advocacy and service groups) to conduct site surveys of all polling places in Virginia. ADA standards were used to determine polling place accessibility.
- Reimbursement to Localities for Barrier Removal: Following surveys of the polling facilities, SBE notifies the local Election Officials of the barriers discovered at their polling facilities. After the local offices remove the barriers, the SBE reimburses them with HAVA funds allocated to this project.

Voting Information

SBE completely redesigned its web site to provide better and easier access to information for the public regarding the electoral process. The new web site is fully accessible and complies with Virginia's accessibility and usability standards.

Computerized Statewide Voter Registration List

On December 29, 2004, Virginia awarded a contract for a HAVA compliant statewide voter registration system entitled Virginia Election Registration Information System (VERIS). During calendar year 2005, \$101 funds were used for:

- personnel costs (e.g., project management staff, administrative support),
- project overhead (e.g., rent, equipment, phones),
- staff travel and meeting costs,
- payments to the selected vendor for completing specific deliverables including:
 - initial project management deliverables (i.e., detailed project plan) and
 - software baseline delivery, and
- hardware and network connectivity costs.

Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)

During calendar year 2005, the Virginia UOCAVA Coordinator continued to maintain and update information pamphlets to stakeholders, mailed registration applications and absentee materials to stakeholders and participated in outreach activities that provide the UOCAVA citizen with information needed to register and vote absentee. \$101 funds were used for:

- printing and mailing of pamphlets,
- voter registration applications,
- absentee ballot materials
- support of outreach activities, and
- UOCAVA Coordinator's salary and benefits.

Election Official Training

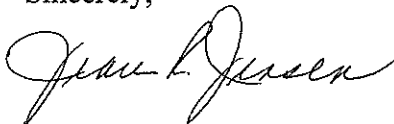

During calendar year 2005, the SBE conducted regional training sessions for local election officials on the new provisional voting policies and procedures. SBE also conducted regional training sessions on the new HAVA compliant voting equipment and related security issues.

Voter Education & Training

During the calendar year 2005, the SBE provided funding for poll worker training on new HAVA compliant voting machines. The SBE also provided funding for voter education on new HAVA compliant voting machines.
